SEPEARATE NOTE TO PATENT OFFICE REGARDING APPLICATION

This application is being sent as a correction to a previous application. The papers the US Patent And Trademark Office sent to me regarding this matter are included in this mailing.

There were the following specific requests to make corrections to my previous application:

- The Claim(s) commencing on a separate sheet (37 CFR 1.75(h)).
- Substitute drawings in compliance with 37 CFR 1.84 because:
  - Drawing sheets do not have appropriate margin(s) etc.....
- Figure(s) 11A and 11B described in the specification were omitted.

In regards to the Claim(s), I had to reprint the rest of the written portion of application to re-coordinate to page numbers, because the original application had the last sentence of the Detailed Description of The Invention run over onto the Claims page. To avoid confusion, I am sending a reprint of the first 5 pages of this Application.

In regards to the Substitute drawings, I corrected the margins and included the omitted drawings 11A and 11B.

Furthermore, I have sent a complete application with all requested corrections to avoid problems with page numbering and the flow of the application.

After speaking with a US Patent Assistant, I was informed that the petition fee required would be \$65 due to my small entity status. A money order is enclosed to cover the petition fee.

Respectfully submitted,

Glenn Martyn,  
Inventor of Petscape
